EXAMINER

PATEL, ASHOKKUMAR B

ART UNIT PAPER NUMBER

2154

DATE MAILED: 10/27/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Advisory Action Before the Filing of an Appeal Brief	Application No. 09/921,167	Applicant(s) BENNETT ET AL.	
	Examiner Ashok B. Patel	Art Unit 2154	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 26 September 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
 b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
 (a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
 (b) ☐ They raise the issue of new matter (see NOTE below);
 (c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
 (d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
 5. ☐ Applicant's reply has overcome the following rejection(s): _____.
 6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
 7. ☐ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
 The status of the claim(s) is (or will be) as follows:
 Claim(s) allowed: _____.
 Claim(s) objected to: _____.
 Claim(s) rejected: _____.
 Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
 9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
 10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See continuation sheet.
 12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). _____.
 13. ☐ Other: _____.

Continuation sheet:

Rejections under 35 U.S.C. 102(e)

Applicant's argument:

"The Applicants' invention is a method and apparatus for routing a particular message from a sender in a first digital mobile network to an intended receiver in a second, different digital mobile network by reformatting the original routing information associated with the message into a routing format that is determined on a message-by-message basis, depending on the destination receiver identifier, in order to allow transmission of the message between incompatible digital mobile networks. This reformatting of the routing information is transparent to the sender and the receiver of the message, and the message body remains unchanged." (page 2)

"The method of Carey is quite different.....other art of record." (page 3)

"In particular, Carey fails todigital mobile network."(page 3)

"Further, Carey fails to disclose.....unchanged." (page 4)

"In order to more.....the second digital mobile network."(page 5)

Examiner's response:

In addition to page 2, para. [0024] and [0025], Carey also teaches at page 4, para. [0033], "If, on the other hand, at decision block 144, the recipient is a user with an instant message session active through the instant message routing server 24, the instant message routing server 24 receives the instant message, block 148. Then, at block 150, the instant message routing server 24 prepares the received instant message according to the predefined protocol and sends the prepared instant

Art Unit: 2154

message to the short message service center 32, where the short message service center 32 stores and **forwards the instant message to the mobile carrier 36 according to the predefined wireless protocol,** block 152.”

What Carey teaches is that “the instant message routing server 24 receives the instant message” and then the server 24 “prepares the received instant message according to the predefined protocol” and sends the **prepared instant message** to the short message service center 32” which then “stores and **forwards the instant message to the mobile carrier 36 according to the predefined wireless protocol.**” Herein Carey specifically teaches that “instant message” is received, the same “instant message” is prepared according to predefined protocol, the same prepared (now remember that preparation only includes the change in accordance with the protocol) “instant message” is sent to the short message service center 32, where the short message service center 32 stores and forwards the same “instant message” to the mobile carrier 36 according to the predefined wireless protocol, block 152.”

Thus, Carey clearly elucidates “routing a particular message from a sender in a first digital mobile network to an intended receiver in a second, different digital mobile network by reformatting the original routing information associated with the message into a routing format that is determined on a message-by-message basis, depending on the destination receiver identifier, in order to allow transmission of the message between incompatible digital mobile networks.” And also, therefore, the reformatting of the routing information is transparent to the sender and the receiver of the message, and the message body remains unchanged.
